## **2 Meter Sharing Proposal is on CEPT Conference Preparatory Group Agenda**

*08/16/2019*

The final European Conference of Postal and Telecommunications Administrations (**CEPT**) Conference Preparatory Group (CPG) meeting prior to World Radiocommunication Conference 2019 (WRC-19) gets under way on August 26. Action at that gathering will determine whether a French proposal to have WRC-23 study sharing 144 – 146 MHz with the Aeronautical Mobile Service will be adopted as a CEPT WRC-19 position. International Amateur Radio Union (IARU) experts will be present at the CPG to explain the IARU position on this and other topics. The French proposal, raised on short notice at a CEPT meeting in June, has riled the Amateur Radio community worldwide and prompted petitions to prevent its passage. The proposed 144 – 146 MHz segment would be part of a broader consideration of spectrum allocated to the Aeronautical Mobile Service.

IARU has asked its member societies to explain the Amateur Service's concerns over the French proposal to their telecommunications regulators, and it has submitted a background paper on amateur usage and regulatory concerns, as well as a basic technical analysis showing the impracticality of such a proposal. IARU has said much more appropriate parts of the spectrum are available to study for non-safety AMS applications.

Another issue addressed during the June CEPT meeting concerned the sharing of the Amateur Radio 1240 – 1300 MHz band with Europe's Galileo GPS system. IARU has asked its member societies to discuss with regulators the best way to resolve concerns regarding a few cases of Amateur Radio interference to the Galileo navigation system specific to its E6 sub-band at 1260 – 1300 MHz. IARU believes that CEPT is the proper

venue to study the matter, rather than proposing it as WRC-23 agenda item.

Regarding the WRC-19 agenda item to harmonize the 50 MHz band, IARU has expressed its hope that member-states will support the European Common Proposal, “with as many as possible signing the optional footnote to allow primary access on a national basis over part of the band being proposed for amateur use.”

IARU has indicated that it will seek support from Region 1 administrations for a “No change” approach to the current regulatory situation in the 5650 – 5850 MHz and 47 – 47.2 GHz bands.

# REMINDER!!!! Illinois AND Missouri!

*"Each day, law enforcement officers, firefighters, emergency response personnel, and highway workers encounter situations which place their lives in jeopardy while protecting the citizens of Illinois. This legislation helps to ensure that they can perform those duties out of harm's way."*

*Penalties for violating Scott's Law include:*

*a fine of not more than \$10,000 suspension of driving privileges for a period of up to a year but not less than 90 days for damaging another person's property suspension of driving privileges for a period of not less than 180 days but no more than two years for injuring another person a two-year suspension of driving privileges for causing the death of another person.*

*The ISP encourages motorists to follow these precautions when approaching an emergency vehicle with its lights activated:*

*Slow down and proceed with caution. Yield the right-of-way by changing into a lane not immediately adjacent to the emergency vehicle. Be prepared to pull over to the right-hand side of the roadway and stop if directed to do so. Be watchful of the movement of emergency personnel and equipment. ISP advised the legislation applies to all vehicles displaying flashing lights, including highway maintenance vehicles.*

**FIRST ANNUAL MIKE PHILLIPS NORSP  
MEMORIAL TOYS FOR TOTS TOY DRIVE**

The Egyptian Radio Club is asking for donations of new unwrapped toys. Toys collected will be donated to the Marines Toys for Tots campaign in memory of our dear friend Mike Phillips.

Toys collected will be distributed locally to children, who might not have a gift otherwise.

The toys will be collected at the club Christmas party, as usual, on December 5<sup>th</sup>, 2019.

New, unwrapped toys only, please.

## An Announcement From The Antenna Builders Guild

We are going to refocus the Antenna Builder's Guild to being builder's and designers and operators like we used to be. Each meeting will have a theme in a series of basic antenna building. Beginning with calculating and cutting dipoles and loops, then learning about and winding the various baluns, understanding and building ladder line and comparing it to coax, designing and building yagi's, and understanding coupling colinear elements.

We'll still plan trips to Pere Marquette and other places of radio interest. Feel free to suggest and location. Also, we've have helped raise QTH antennas in the past and will continue to do so as needed.

Next gathering is at Pleasant Ridge Park on 31 August.

The 2 meter Antenna Building Contest is 14 Sept.

## FCC Dismisses ARRL, AMSAT Requests in Small Satellite Proceeding

08/16/2019

An FCC *Report and Order (R&O)* released August 2 in the so-called “small satellite” rulemaking proceeding, IB Docket 18-86, failed to address concerns expressed by ARRL and AMSAT. Both organizations filed comments on the FCC *Notice of Proposed Rulemaking (NPRM)* in the proceeding last year, seeking changes in the FCCs interpretations and procedures affecting satellites operating on Amateur Satellite Service frequencies.

“These comments address topics outside the scope of this proceeding, and we decline to adopt any of the requested rule modifications or updates at this time,” the FCC said in the *R&O*. The FCC did mention amateur satellites in its 2018 *NPRM*, explaining what they are and describing the documentation and authorization process, but it did not solicit comments.

“The Commission did not seek comment in the *NPRM* on any modifications or updates to the rules governing Experimental or amateur satellite licensing. The streamlined Part 25 small satellite process adopted in the *Order* is an alternative to existing license processes and does not replace or modify the authorization procedures for satellites currently contained in Parts 5, 25, or 97 of the Commission’s rules,” the FCC explained. “Nevertheless, we received a number of comments in response to the *NPRM*, particularly regarding the rules applicable to amateur satellite operations, suggesting that aspects of those rules be improved or clarified.”

In its 2018 *NPRM*, the FCC had said, “Because the type of operations that qualify as amateur [is] narrowly defined, an amateur satellite authorization will not be appropriate for many small satellite operations.”

In its 2018 [comments](#), ARRL said it wanted the FCC to preclude exploitation of amateur spectrum by commercial small-satellite users authorized under Part 5 Experimental rules and suggested that the FCC adopt a “a bright line test” to define and distinguish satellites that should be permitted to operate under Amateur Satellite rules.

ARRL’s position was to support and encourage college and university Amateur Radio experiments where the sponsor of the experiment is a licensed radio amateur and all operation in amateur spectrum is compliant with Part 97. Part 5 Experimental authorizations for satellites intended to operate in amateur allocations by non-amateur sponsors should be discouraged, absent a compelling show of need, ARRL told the FCC.

The International Amateur Radio Union (*IARU*) announced in 2017 that it would no longer coordinate non-amateur satellite operations unless directed to do so by the national administration, and it adopted new satellite frequency coordination guidelines that require educational and university satellites to have an identified amateur component. AMSAT’s comments reflected many of the same concerns that ARRL had expressed. — *Thanks to Ray Soifer, W2RS, for his assistance.*

### General Club Information

The club holds a monthly meeting on the first Thursday of the month and is open to all. Visitors are always welcome at the meetings. The next meeting is September 5<sup>th</sup>, at 6:30pm at the Holy Family Community Center at 2600 Washington Ave in Granite City, IL. Members tend to arrive early to socialize, and the actual meeting starts at 6:30pm. After the meeting, there is usually a social gathering at a local restaurant. "The meeting after the meeting."

The club has a informal net every Tuesday at 8:00pm on 146.76. The PL and time-out timer are turned off for the net. You do **NOT** need to be a member to participate or use the repeater, as it is open to **ALL** licensed Amateurs. Be sure to "stop in" and say hi!

Anyone interested in joining the Egyptian Radio Club will find an application at the end of this newsletter.
